

Half Moon Brows

PRECARE

Permanent Makeup (Brows, Lips, Eyeliner, Freckles, Saline Lightening):

We are so happy you have chosen to receive Permanent Makeup at Half Moon Brow Studio.

To ensure the success of your Permanent Makeup appointment:

- Do not tweeze/wax/perform electrolysis 1 week before the treatment
- No sunburnt skin
- Discontinue use of retinol products 1 week prior to treatment
- Discontinue use of Accutane 6 months prior to treatment
- No chemical peels, microdermabrasion, microneedling, laser, or dermaplane within 1 week of the treatment
- No Botox/Filler within 2 weeks of the treatment
- If you are prone to cold sores and are receiving lip blush, it is recommended to have an antiviral prescription available as the treatment may trigger an outbreak. If you do experience an outbreak, take your antiviral prescription as directed by your physician.
- Discontinue use of lash growth serum within 2 weeks prior to eyeliner treatment
- If you have glaucoma, please consult with your doctor before receiving an eyeliner treatment and be sure to let your artist know.

In order to avoid excessive bleeding and poor color deposit:

- Do not drink alcohol within 24 hours before your treatment
- Do not take Aspirin or Ibuprofen 24 hours before your treatment
- Do not take Fish Oil or Vitamin E 1 week prior to your treatment
